

BOROUGH OFFICERS.

Burgess—JOHN A. DALE. Councilmen—G. W. Robinson, S. A. Arner, A. H. Partridge, G. W. Sawyer, J. Van Giesen, W. J. Roberts, Justice of the Peace—D. H. Knox, C. A. Randall.

FOREST COUNTY OFFICERS.

President Judge—L. D. WETMORE. Associate Judges—JOS. G. DALE, ED. AND KENN. Treasurer—S. J. SMILEY. Praying, Register & Recorder, &c.—J. W. CLARK.

LOCAL AND MISCELLANEOUS.

—Rev. Elliot will preach in the Presbyterian church on Sunday next morning and evening. Sunday School at 3:00 p. m.

—Laborers on the P. T. & B. R. R. are receiving 99 cts. per day—and flour is advancing.

—M. W. Tate, Esq., has been appointed Counsel for the Commissioners of Forest County for the ensuing year.

—Mr. May's health is steadily improving, and we hope to see him on streets again in the course of a few weeks.

—The weather experienced since 2d inst., has restored confidence the ground-hog as a weather prophet. The indications are that our winter is over.

—Mr. Benj. May, of Norristown is again in town visiting his friends. His home is in the former place, but his heart is evidently in Tionesta.

—Ex-Sheriff Van Giesen and Mrs. S. C. Sloan are in town, both being called here by the serious illness of Mr. V.'s little son. We are happy to state that the child is getting better.

—We have received from John R. Murdock, 112 Smithfield St., Pittsburgh, Pa., their "Combined Plant and Seed Catalogue" for 1877.

—Wm. Reck's well on the old Sower place is down 211 feet, has passed through one sand 11 feet in thickness, which they found some gas. They propose to put the well down 400 feet.

—Wm. Lawrence is shipping his goods back to Tionesta preparatory to setting up house-keeping in the Lawrence House. He takes possession on the 19th of March.

—All the last batch of diphtheria cases in town are convalescent, all having had light attacks of the disease. We don't profess to be a prophet, but we believe now that we are really through with this deadly malady in town.

—The evening of the anniversary of the day on which Washington first made his appearance on this mundane sphere, will be celebrated by two parties, one at the Lawrence House, and the other at Partridge's Hall.

P. S.—The parties take place this evening, 21st.

—Col. Hoy having disappointed the people by failing to lecture on temperance, as announced, is there not some other gentleman of prohibition proclivities who could address a Tionesta audience on that subject? We think a lecture would be well attended, only for the sake of variety.

—At the election held in town yesterday, there was no bull-dozing, no intimidation, no assassination, no fraud, no corruption, no perjury, no bribery, no fights, no quarrels, nor, in fact, anything to justify the throwing out of us—at least we have heard of nothing of the kind. Perhaps an opinion from David Dudley Field would put a different face on the matter.

—Hon. S. H. Haslet and his sore foot arrived at home on Saturday last. We took an early opportunity to call, and found Mr. Haslet much more comfortable than we had anticipated. His foot was badly mashed, but skillfully dressed, and it is thought that he will get along without more trouble. If it is possible, but not probable, that he may have to lose another toe. He is in good spirits, and is receiving numerous calls.

—The following are the names of the officers elected for Tionesta Borough at the election held yesterday:

- BURGESS. G W Robinson. TOWN COUNCIL. S J Sedley, Wm Robinson, P D Theobald, A B Kelly, D J Knox, C A Randall. HIGH CONSTABLE. Fred Koppman. CONSTABLE. H Swaggart. SCHOOL DIRECTORS. D W Clark, W B Dunn. AUDITORS. T B Cobb, W E Lathy. OVERSEERS OF THE POOR. G W Sawyer, A H Partridge. JUDGE OF ELECTION. John Reek. INSPECTOR OF ELECTION. Albert A Grovo.

—Our Lacytown letter of last week did not reach us until Wednesday evening last, hence the omission in last week's issue. We extract the following items:

Thefts occur here as in other cities: the grist mill was broken into recently and ten sacks of flour taken. A few evenings later the ice house of Mr. Arner, where fresh meat is usually kept, was entered by some person unknown, and about ten pounds of beef taken. Suspicion rests upon several parties.

Last Thursday (8th) a team belonging to Wm. Dusenbury broke through the ice with a load of coal, near Mr. Ittel's shanty, or "John's Rock," as it is called, and one of the horses remained in the water so long that serious results are feared.

Mr. L. Arner has cleared the ice from the bayou, which enables him to put in five rafts without any danger from the main body of ice, should it go out with high water.

Col. J. F. Hoy, of New York, who is lecturing on temperance throughout the country, gave two lectures in Tionesta, under the auspices of the Good Templars, Wednesday and Thursday evenings. He had large audiences both evenings, who were well entertained by the lecturer. At the close of his Thursday evening lecture, the pledge was circulated among the audience and the signatures of fifty-four persons, who were not already identified with the temperance movement, was obtained.—Tionesta News.

The above shows where Col. Hoy was on the evening he was advertised to lecture here, but does not explain why he did not fulfill the engagement made for him at this place on Thursday evening last by District Deputy G. W. Brown. It is not more pleasant for an audience to be disappointed in a lecturer than for a lecturer to be disappointed in an audience. An explanation is due from either Mr. Brown or Col. Hoy, and should be forthcoming.

—The Derrick recently received a telegram in regard to the developments at Marion, this county, in which it was stated that the Towler & James well had got a good sand, good gas and a good show of oil. The next day a dispatch was received stating that "the well was down, tubed, and a complete failure, and the owners had decided to abandon Forest County territory." Monday's Derrick contains a communication from S. S. Towler, stating that the substance of the last telegram was not true; that the territory he controls is not in the market, and will be developed.

—Chris. Johnson finally made the connection with sucker-rods between Hunter's well and Hunter's mill, last week, and for a few days the groaning of the machinery as it moved back and forth, sounding like the means of some one in distress, was painful to hear. They have evidently oiled the journals since, as the groaning has ceased. The well is pumping about two barrels per day. The old well north of the mill is to be pumped in the same manner, which will probably double the production, and make a very comfortable income for the owner.

—Hon. G. A. Jenks, the intensely Democratic Member of Congress from this District, whose term expires (hal-le-lujah!) on the 4th of March next, is taking a very prominent part in the arguments before the electoral Commission. He spread himself all over the record on the Louisiana case, and now he is to do his level best to make the Commission swallow the Oregon fraud, Cronin and all. All this speaks well for Jenks' ability as a lawyer, but—

Remedy for Diphtheria.

ED. FOREST REPUBLICAN:—

I send you a cure for Diphtheria which I hope you will publish:

Take fat salt pork, score and sprinkle with salt, and tie around the throat, wash or gargle the mouth and throat with alum water, and put burnt alum on the worst places where you can reach them.

The above has been used in several families with good success, and though it may not cure in every case, would, I think, hold the disease in check so that the physician would have a chance. A SUBSCRIBER.

—The following Resolution was passed by the Council of Tionesta Borough, at a special meeting, held February 15th, 1877:

Resolved, That the Constable, High Constable and Overseers of the Poor of Tionesta Borough, be and are hereby required to enforce within said Borough the Act of Assembly of May 8, 1876, to define and suppress vagrancy; and the Burgess is hereby authorized and empowered to hear and determine such cases within said Borough.

—For two or three years past we have heard no noise in regard to Cash-Up, either in the newspaper reports of production, or by word of mouth. We had concluded that this once lively town was a howling wilderness, and the porcupine and the ground-hog claimed it as their own. But for here comes a young man who tells that there is a large number of wells pumping there, and according to the motion of the walking-beams a good deal of oil must still be produced there. He also informs us that preparations are making for putting down new wells, on that territory.

—Just so long as there was any hope of the Electoral Commission favoring Mr. Tilden, that body was cracked up by the Democratic press as the most upright, just and dignified body that ever assembled in the United States. Now that they have disappointed these hopes there is nothing too vile for this same Democratic press to say of this unfortunate Commission; one writer in the N. Y. Sun even going so far as to designate the Republicans of the Commission as "the eight eminent perjurers."

—St. Valentine's Day was observed more generally in town this year than ever before. Scarcely a man, woman or child but received one or more of them. Some were loving, some sarcastic, some scandalous,—among the latter may be classed one received by us, in which we are represented with a bald head, holding a monster quill, with some "poetry" below informing us how sadly we had mistaken our avocation! We would like to hit the fellow that sent it in the small of the back with our West Hickory club.

—Monday last being the tenth anniversary of the marriage of Mr. and Mrs. Geo. McCray, of President, a pleasant little party gathered at their place on that evening. Among the guests was a small party from Tionesta, all of whom thoroughly enjoyed the hospitalities of host and hostess. Two violinists were called in and a pleasant little hop resulted. Those refreshments were excellent. Numerous presents in the shape of tinware were brought in by the guests.

—Ah! Wm. A. Wallace has been making some eloquent, masterly and convincing speeches against Louisiana fraud, perjury, &c., &c., but not one word—not one syllable do we find in his speeches against the use of coffee-colored fraudulent naturalization papers. He might have made a big point right there, but it had evidently "slipped his memorandum."

—A total eclipse of the moon will occur on Tuesday next, invisible in the United States. A total eclipse of S. J. T. will occur in the course of a week or such a matter, visible all over the United States. The latter eclipse will be caused by a star of the first magnitude, known to astronomers and others by the cognomen of Rutherford.

—A team of horses belonging to Peter Brewster ran away last Thursday morning, starting from the depot, and running across the bridge to this side of the river, where they brought up against a ferry post, breaking a leg of one of the horses, and making a general wreck of the load, which consisted of flour, mashes, &c. The injured horse was shot.

—Buffalo Bill is playing a part in a piece called "The Red Right Hand, or Buffalo Bill's First Scalp for Custer." Bill Tweed, New York's favorite son, is busily engaged, in a house on Ludlow St., studying his part for a new piece which is to be brought out during the first week in March, entitled "Samuel's Sorrow, or the Railroad Wrecker's Regret."

—The borough authorities received a valentine on Wednesday evening last in the shape of ten traps. They were enveloped in the county jail over night, and stamped the mud of Tionesta off their feet the next morning. As will be seen in another item, our Council resolved on the subject, and if traps must be fed they must also work.

—John Jamison, who has been for some time past residing near St. Petersburg, is at home on a short visit, looking hearty. He reports that H. McSweeney, Esq., formerly a resident of this place, and a graduate of the Venango Co. bar, has the leading practice in that city. Glad to hear of his success.

—Peterson's Magazine for March opens with an exquisite steel engraving, "Coming Home," which is alone worth the price of the number. The stories are unusually good this month. We notice particularly a powerful one by Mrs. F. Hodgson Burnett, "Madeleine Suzette," and also Mrs. Ann S. Stephens' stirring novel, "The Dependent Cousin." The price to single subscribers is only two dollars a year. To clubs it is cheaper still. It is not too late to get up clubs for 1877, and perhaps many who thought they could not afford it, earlier in the season, can afford it now, when times are unmistakably getting better. Specimens are sent, gratis, to those wishing to get up clubs. Back numbers, to January inclusive, can always be furnished. Address Charles J. Peterson, 306 Chestnut Street, Philadelphia, Pa.

MONEY.

We will pay cash on delivery at our mill in Tionesta, for white oak stave and heading bolts at the following prices:

- Stave bolts, 35 inches long, per cord of 8 ft. by 4 ft., \$4.50. Heading bolts 22 inches long, per cord of 8 ft. by 4 ft., \$4.00. Heading bolts must be made from timber at least 20 inches in diameter. Office at Lawrence House. J. H. DEERSON & Co., 27 1/2

—The undersigned begs leave to inform the citizens of Tionesta, and the public in general, that he has opened a FURNITURE STORE, in his new building at the junction of Elm St. and the Dutch Hill road, where he keeps on hand a large assortment of

Six per cent. interest on deferred payments. Ten per cent. discount for cash. For full particulars, maps and pamphlets, apply to W. D. S. & Co., Land Commissioner, Little Rock, Arkansas. 41-4

WANTED Men to sell to Merchants, \$90 a month and traveling expenses paid. Genl Mgr. Co., St. Louis, Mo. 38-4. JOB WORK neatly executed at the REPUBLICAN Office.

ONLY HENRY... HARD TIMES. CHANGE YOUR SURROUNDINGS.

All wanting Ethel Farms, especially adapted to the growth of the Vine, where it is an established success and pays large profit. The land is also adapted to the growth of Peaches, Pears, Apples and small fruits; also Grain, Grass and Vegetables. Many hundreds of excellent Vineyard, Orchards and Farms, can now be seen. The location is only 34 miles south of Philadelphia, by Railroad, in a mild, delightful climate, and at the very doors of the New York and Philadelphia Markets. Another Railroad runs direct to New York.

The place is already large, successful and prosperous. Churches, Schools, and other privileges are already established. Also, manufactories of Shoes, Clothing, Glass, Straw goods, and other things, at which different members of a family can procure employment. It has been a health resort for some years past for people suffering from pulmonary affections, Catarrh, Ague, and debility; many thousands have entirely recovered. A new brick hotel has just been completed, 100 feet front, with back buildings, four stories high, including French roof, and all modern improvements for the accommodation of visitors. Price of Farm Land \$25.00 per acre, payable in installments, within the period of four years. In this climate, planted out to vines, 20 acres of land will count fully as much as 100 acres far the north. Persons unacquainted with fruit growing can become familiar with it in a short time on account of surroundings. Five acres, one acre, and town lots, in the towns of Landisville and Vineland, also for sale. Whilst visiting the Centennial Exhibition, Vineland can be visited at small expense. A paper containing full information, will be sent upon application to CHARLES K. LANDIS, Vineland, N. J., free of cost. The following is an extract from a description of Vineland, published in the New York Tribune, by the well-known Agriculturist, Boston Exhibition: "All the farmers were of the 'I will do' sort, and some of them, who have turned their attention to fruits and market gardening, have grown rich. The soil is loam, varying from sandy to clayey, and surface gently undulating, intersected with small streams and occasional wet meadows, in which deposits of peat or muck are abundant, sufficient to fertilize the whole upland surface, after it has been exhausted of its natural fertility. It is certainly one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming, that we know of this side of the Western prairies. We found some of the oldest farms apparently just as profitably productive as when first cleared of forest fifty or a hundred years ago. The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous marl, showing many distinct layers of ancient shells, of the tertiary formation; and this substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated by such plants as the farm desires to cultivate."

\$45 PER TERM, 127 PER YEAR. Pays ALL EXPENSES. CHAMBERLAIN INSTITUTE, RANDOLPH, N. Y. School established 1850. Property \$103,000. Endowment \$40,000. Our youth (both sexes) shall have the benefit of it. Winter term opens Dec. 5. Send for catalogue (free) to Rev. J. T. EDWARDS, D. D., Principal. 32-4t
